Introduction

Changing For the Great Future

Our beloved company PT Fajar Mas Murni, or generally known simply as FMM, has been around for almost half a century, providing solution and personalized services to our customer sand, in the process, helping shape our country's general development and infrastructure.

Starting from a humble beginning as a general importer, our company has grown over the years to become one of Indonesia's biggest limited liability companies. Our products have helped build industries, infrastructures, and transportation.

We also help our country moving forward in research, education and healthcare. More than that, we've create opportunities for many of our country men to experience what sustainable growth looks like in practice.

We aim to always be the first in line in developing this country.

Representing our name "Fajar", which translates as "dawn", we want to make sure that we are here at the beginning of each day, to always be the first choice of credible partner for everyone.

That' s our promise.

President Director

Chapter III

Company

Overview

Fajar Mas Murni Headquarters
Jln. Raya Narogong No. 214,
Bekasi 17116
West Java, Indonesia

With the company's age that has reached four decades, PT Fajar Mas Murni is a mature, experienced company that is always ready to give excellent services. Our drive and passion, however, remain young.

Learn more about who we are in the following segments.

Fajar Mas Murni This is Us.

Starting as a general importer back in early 1973, PT Fajar Mas Murni has turned the pages of its history. On 11 May 1978, the activities were consolidated and stepped-up.

Our main activity becomes representing national and international well-known manufacturers mainly as their exclusive distributor for the territory of the Republic of Indonesia.

FMM, as it is generally known, is an Indonesian limited liability company. Within a relatively short period of time, FMM's sphere of endeavor's has steadily grown, and FMM is now well-established as a major supplier of various types of essential equipment and materials used to support development in almost all sectors of the Indonesian economy.

FMM provides complete professional services to its customers throughout Indonesia.

Further more, the company is also committed to maintain the highest standards for the safety and health of all company employees and to prevent pollution of the environment.

The company conducts all of its activities with appropriate safeguards against harmful material exposure to the general public that risks against their safety and health.

The company observes all applicable laws and regulation regarding quality, safety, health and environment in order to minimize the impact of environmental pollution.

4 Decades of Service

For more than four decades, we have contributed to Indonesia's growth.

For almost half a century, our company has been devoted to providing outstanding solutions for businesses and government agencies to thrive in this markedly fast-moving age.

From industries, infrastructure, transportation to research, education and health care, our works, crafted using our products, are spread across this great nation.

Our products have helped us achieve a reputed position in the industry due to their assured quality standards.

Starting in 1978, our company has seen the many changes that Indonesia has experienced. In a way, we are a witness to the development of this country. We grow as the country grows. We moved the direction of our business in to sales, spare parts and services.

In 2016, we decided that our company needed a change in order to improve ourselves. We reorganized our company that year.
