

RM275-315 W/C 50Hz New Product Launch Announcement

Dear All,

IR is announcing RM275-315 W/C 50Hz products to fulfill the market requirement for higher efficiency air compressor and elevate IR competitiveness in the compressed air market.

Product launch details:

- 1. Region:** AP
- 2. Product:** RM275-315 **fixed speed and variable speed, water cooled 50Hz products**
- 3. Leadtime:**
 - ✓ 20 days within forecast
 - ✓ 2.5 months without forecast
- 4. Documents will uploaded to AP share point.**

Product Features:

- **Performance**
 - ✓ Flow range: 48m³/min~64 m³/min
 - ✓ Voltage for FS: 400V, 6kV, 10kV
- **Reliability**
 - ✓ 46 °C design
 - ✓ Main motor SF 1.21
 - ✓ SS tube coolers
 - ✓ Upgraded piping design and lubrication system
 - ✓ Water separator
- **Productivity**
 - ✓ Luminance Le-260 controller
 - ✓ 8000h Ultra Coolant

Please contact the undersigned should you have any queries. Thank You!

Best Regards.
